

THE FRONT DOOR TO PRIVATE MARKETS.

Connecting founders, investors, and everyday professionals —
from first swipe to funded.

THE CORE PROBLEM

PRIVATE MARKET INVESTING IS BROKEN.

Discovery Is Inefficient

Founders rely on cold outreach. Most decks are never opened. Capital exists—attention does not.

Signal Is Buried

Angels miss deals due to volume. No standardized data = subjective screening. High-potential startups are filtered out.

Access Is Gated

Markets favor insiders. Everyday professionals are locked out. Platforms optimize for transactions, not inclusion.

THE THESIS

CATALYST IS THE FRONT DOOR TO PRIVATE MARKETS.

Catalyst connects founders with institutional and accredited investors — from first swipe to funding.

While simultaneously onboarding & introducing every-day professionals to private market opportunities.

Standardized startup discovery paired with a swipe based user interface to filter intent.

Designed from day one to transition into a regulated securities platform.

FOUNDER PAIN

MOST FOUNDERS DON'T GET REJECTED — THEY GET IGNORED.

Fundraising is dominated by inbox chaos. Quality startups fail to reach aligned investors. Discovery inefficiency slows innovation.

INVESTOR PAIN

THE TWIN COSTS: DROWNING IN NOISE, LOCKED OUT OF WINNERS.

Investors are buried under thousands of inconsistent inbound decks, yet still miss the defining companies of a generation because insiders fill the rounds before they can even see the signal.

Precision over volume. Access over noise.

SOM — Annual Capital Flow Intermediated

Figures represent capital volume. Modest take rates on \$5.1B yields 9-figure revenue.

ACCESS + PRECEDENTS

CONSUMERIZING ACCESS — WITH REGULATION IN MIND.

Kalshi — Regulated

Proved regulated markets can be intuitive.

Robinhood — Mobile-Native

Proved access scales with simple UX.

Catalyst — Private Markets

Bringing retail UX to the Reg CF rail.

Catalyst applies these lessons to startup investing — responsibly.

PRODUCT TODAY (DISCOVERY MODE)

CATALYST TODAY: DISCOVERY, COLLABORATION, & OFF-PLATFORM EXECUTION.

Swipe to discover. Review standardized data. Express interest. Help startups grow.

Investment happens off-platform — users use our tools for discovery and collaboration while we work towards regulatory compliance.

PRODUCT TOMORROW (FUNDING PORTAL)

CATALYST TOMORROW: THE ONLY REGULATED SECURITIES EXCHANGE FOR PRIVATE MARKETS.

Transition to SEC-registered portal. Reg CF offerings first. Integrated escrow, KYC, and disclosures.

Becoming a funding portal is a core part of long-term strategy.

PHASE-BASED EXECUTION

FROM DISCOVERY TO CAPITAL INFRASTRUCTURE.

Phase 1 — Discovery Platform

Data-driven matching. No custody. Revenue: \$1M – \$10M (sub-scale)

Phase 2 — Capital Facilitation

Soft commitments. SPVs. Introductions. Revenue: \$20M – \$60M

Phase 3 — Regulated Portal

Full execution. Primary & secondary. Revenue: \$100M – \$200M+

North Star Metric: Annual Capital Flow Facilitated.

Revenue Potential

Not a SaaS company chasing subscriptions — a capital infrastructure platform monetizing participation in private market flows.

REVENUE MODEL DETAIL

HOW WE MAKE MONEY

Current (Live) — \$1–\$5M ARR

Founder subscriptions, visibility tools, concierge matching.

Post-CF Approval — \$10–\$30M ARR

Success fees on capital, founder SaaS (filings), institutional data APIs.

Mini-IPO (Regulated) — \$50–\$150M ARR

Primary market underwriting fees, secondary trading spreads, compliance services.

COMPETITIVE POSITIONING

CATALYST EVOLVES ACROSS THE STACK.

We start with superior discovery, then unlock execution.

Discovery: better UX and standardized data than AngelList/Crunchbase.

Facilitation: SPVs and soft-circling vs. traditional syndicates.

Execution: regulated Reg CF / Mini-IPO rails — direct primary and secondary markets.

THE VISION

THE FUTURE OF PRIVATE MARKET ACCESS.

Catalyst connects founders, investors, and everyday professionals — from first swipe to funded.

Building the front door to startup investing.
